

CITY OF CEDARBURG

2016 REFUSE AND RECYCLING COLLECTION SIGN-UP

Refuse	The base level of service per building for refuse will be up to the equivalent of six (6), thirty-two (32) gallon garbage containers per building per week. If a building generates more refuse than this amount, the building would not be eligible for service through the City.
Recycling	The base level of service per building for recycling will be one (1) sixty-four (64) gallon recycling cart per building bi-weekly (every two weeks). If a building generates more recycling than this amount, the building owner has the option to exchange the one sixty-four (64) gallon recycling cart for one ninety-six (96) gallon recycling cart upon paying a one-time non-refundable fee of \$25.00. Pickup would continue to be on a bi-weekly (every two weeks) basis. If additional carts are needed, the building owner may obtain an additional cart(s) and an invoice will be sent on a yearly basis for the actual cost of pickup. All recyclable material must be placed within the cart. Any recyclable material placed outside of the cart will not be picked up.

After reading the information provided above and evaluating the refuse and recycling generated by my building, it is my intention to do the following:
