- (d) **Specifications.** Sidewalks and curb and gutter shall be constructed in accordance with the specifications adopted by the Board of Public Works, on file with the City Engineer, unless the City Engineer authorizes a different standard because of the unique characteristics of the site.
- (e) **Construction of Extra Width Sidewalks.** Any person wishing to have the sidewalk in front of nonresidential premises wider than the established width may make written application therefor to the City Engineer. The City Engineer may cause the sidewalk to be built to the edge of the premises and shall notify the applicant of the extra cost and shall note such extra cost on the application and shall file such with the City Clerk. He shall report any defects to the Board of Public Works at its next regular or special meeting. The Board of Public Works shall then take whatever action it feels is appropriate.
- (2) Dangerous Conditions. Notwithstanding the provisions of Subsection (1), when the cost of repairs of any sidewalk in front of any lot or parcel of land does not exceed

(Ord. 90-17)
- (i) **Special District Sidewalk Requirements.** (Ord. 90-17)
 - (1) There shall be constructed on both sides of all streets which are not in an M-1 Limited Industrial District, M-2 General Industrial District or PDO Planned Public Development Overlay District, concrete sidewalks and driveway approaches, which are backfilled, graded and paved and parkways which are seeded in accordance with the specifications as set forth by the City Engineer. Sidewalks shall be constructed on at least one side in an M-1 Limited Industrial District and M-2 General Industrial District. Sidewalks may be required to be located on both sides of the street in those cases deemed warranted by the Plan Commission. The Plan Commission shall determine the sidewalk locations based on safety, serviceability and other land use planning considerations.
 - (2) The sidewalk requirement of Section 6-2-2 shall not apply to properties along streets in RM-2 zoning districts wherein said property is owned by a condominium development association and the condominium development association fronts both sides of the subject street and wherein the requirement of the construction of sidewalks on both sides of a street in said condominium area would cause a hardship upon the owners of said condominiums. In such a case, the Plan Commission may, by a three-fourths (3/4) vote, recommend to the Common Council that the requirements for installation of sidewalks on both sides of the street be waived and that the Council only require the installation of a sidewalk on one (1) side of the street. The Common Council, to approve such a proposal, shall determine by a three-fourths (3/4) vote, on the basis of hardship, to waive the installation of sidewalks on one (1) side of the street only.
 - (3) The sidewalk requirements of Section 6-2-2 shall not apply to properties along streets in RS-1, RS-7 and RS-8 zoning districts except in those instances in which the Plan

Commission recommends to the Council and the Council approves on a case-by-case basis the need for sidewalk. In such a case, the Plan Commission may, by three-fourths (3/4) vote, recommend to the Common Council that the requirements for installation of sidewalks on both sides of the street be waived and that the Common Council not require the installation of a sidewalk on either side of the street. The Common Council, to approve such a proposal, shall determine by a three-fourths (3/4) vote, to waive the installation of sidewalks on one (1) side of the street only.

- (4) Except as otherwise provided in this section the sidewalk requirements of Section 6-2-2 shall apply to arterial streets, regardless of zoning district classification. In those cases where sidewalks on both sides of arterial streets are impractical due to unique site conditions, existing grades or structural and environmental features that would be unduly disrupted, the board of Public Works may, by three-fourths (3/4) vote, recommend to the Common Council that the requirements for installation of sidewalks on both sides of said arterial street be waived. The Common Council, to approve such a proposal, shall determine by a three-fourth (3/4) vote, to waive the installation of sidewalks one (1) side of the street only.

- (2) Installation of curb and gutter shall require concurrent construction of adjacent sidewalks, unless otherwise determined by the Board of Public Works. (Ord. 90-17)

- (2) Whenever necessary to determine the existence of Dutch Elm disease or elm bark beetles in any tree, the person inspecting such tree shall remove or cut specimens from the tree in such manner as to avoid fatal injury thereto and deliver such specimens to the City Forester who shall forward them to the Wisconsin Department of Agriculture at Madison for analysis to determine the presence of such nuisances.
 - (3) The City Forester and his agents or employees shall have authority to enter upon private premises at reasonable times for the purpose of carrying out any of the provisions of this Section.

Such notice shall describe the nuisance and recommend procedures for its abatement, and shall further state that unless the owner shall abate the nuisance in the manner specified in the notice, or shall appear at the hearing to show that such nuisance does not exist or does not endanger the health of trees in the City, the City Forester shall cause the abatement thereof at the expense of the property served. If the owner cannot be found, such notice shall be given by publication in a newspaper of general circulation in the City.
 - b. If, after hearing held pursuant to this Subsection, it shall be determined by the Common Council that a public nuisance exists, it shall forthwith order the immediate abatement thereof. If such owner or occupant does not abate said nuisance within the time permitted, the City Forester shall cause the same to be abated. No damage shall be awarded to the owner for the destruction of any tree, wood foliage, or any part thereof pursuant to this Section. (Ord. 94-13)
