APPROVED BY _____ DATED ISSUED _____ PERMIT # _____

Sec. 7-1-26 Keeping of domesticated chickens. The following conditions shall apply to each permit issued under this section:

- (1)** No roosters or other crowing fowl are permitted.
- (2)** Noise from chickens shall not be so loud as to disturb a person of ordinary sensitivity.
- (3)** No chicken may be kept within a principal residence.
- (4)** Chickens shall be kept as pets and for personal use only. No owner shall sell or barter eggs or engage in chicken breeding or fertilizer production for commercial purposes.
- (5)** Chickens shall be housed in a coop. A coop shall be no less than three cubic feet of space per chicken and must be connected to a secured and fully ventilated pen (also required) which contains not less than seven cubic feet of space per chicken and an appropriately sized nesting box (also required) at a rate of not less than one box per two birds. Pens shall be properly sized as will permit full spread of the kept bird's wingspan and allow each chicken to walk and run. An existing garage, shed, or small structure may serve as a coop if compliant with the remaining terms and conditions of this section.
- (6)** In the event that the coop is properly screened from view from the street, and if necessary to accommodate the existing structures or historic nature of a property, a chicken coop may be allowed in the side yard or street yard. In all other cases, no person shall keep a chicken in any location on the property other than the rear yard.
- (7)** All coops, pens, nesting boxes, and any other structure or enclosure associated with the keeping of chickens must be located at least 40 feet from a neighboring residential structure, not including a detached garage, at least ten feet from a side or rear property line and at least ten feet from the residence on the property where the chickens, or other similar domesticated fowl, are kept.
- (8)** Coops and pens shall not be located closer than 75 feet from the ordinary high-water mark of a lake, stream, creek, or river.
- (9)** Upon death of a chicken, the permittee must promptly dispose of the chicken in a sanitary manner.
- (10)** The onsite slaughtering of chickens is prohibited.
- (11)** Chickens shall be kept and handled in a sanitary manner.
- (12)** Chickens must be kept in a coop and pen when not being monitored by a responsible individual. When allowed to roam free, chickens must be monitored and within a fenced enclosure. Chickens shall be secured in the coop during non-daylight hours.
- (13)** The coop and pen system shall be properly designed, laid-out and maintained as will provide safe and healthy living conditions for chickens while minimizing adverse impacts on the neighborhood through use of material, colors, architecture and special site design that are complimentary to the existing buildings on the premise and in the surrounding area. The city building inspector shall have sole discretion for coop design and location.
- (14)** All coops must be clean, dry and kept in a neat and sanitary condition at all times.
- (15)** The coop shall be enclosed on all sides and have a roof and doors. Access doors must be able to be shut and locked at night. Opening windows and vents must be covered with predator and bird-proof wire or fencing of no more than one-inch openings.
- (16)** All enclosures must provide adequate ventilation as well as sun protection, and be sanitary, insulated, weatherproofed and impermeable to rodents, wild birds and predators, including dogs and cats. These enclosures must also be sound and moisture-proof and maintained in good repair with sufficient space for freedom of movement and retention of body heat with elevated perches for natural roosting position. The nesting boxes must be elevated off the ground.
- (17)** Provisions must be made for the routine removal and lawful disposal of chicken waste in order to prevent any adverse effects related to odor or unsanitary conditions.
- (18)** Chickens shall not be turned loose or taken to the local humane society when no longer wanted.
- (19)** In addition to compliance with the requirements of this section, no one shall keep a chicken that causes any nuisance, unhealthy condition, creates a public health threat, or otherwise interferes with the normal use of property and the enjoyment of life by humans or other animals.
